

INDEPENDENT AUDITOR'S REPORT

To The Partners of Superba Warehousing LLP

Opinion

We have audited the accompanying financial statements of **Superba Warehousing LLP** ("the Firm"), which comprise the Balance Sheet as at March 31, 2024, the statement of Profit and Loss account for the year then ended, and a summary of significant accounting policies, notes to the financial statement and other explanatory information (hereinafter referred as "the financial statements").

In our opinion and to the best of our information and according to the explanation given to us, the aforesaid financial statements are prepared, in all material respects, in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI) and in accordance with the accounting principles generally accepted in India and of the state of affairs of the Firm as at March 31, 2024, the profit for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SA's) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Firm in accordance with the ethical requirements that are relevant to our Audit of the financial statements in India, and we have fulfilled our other responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Designated Partners for the financial statements

Designated Partners are responsible for the preparation of financial statements in accordance with the aforesaid Accounting Standards and in accordance with the accounting principles generally accepted in India, and for such internal control as designated partners determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, designated partners are responsible for assessing the Firm's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless designated partners either intends to liquidate the Firm or cease operations, or has no realistic alternative but to do so.

Those Designated Partners are responsible for overseeing the Firm's financial reporting process.

Auditor's Responsibilities for the Audit of the financial statements

Our objective are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

1 Corporate information

Superba Warehousing LLP or ("the LLP") is a Limited liability Partnership domiciled in India on November 10, 2016. The LLP is engaged in Leasing Business.

2 Material Accounting Policies

This note provides a list of the material accounting policies adopted in the preparation of these Indian Accounting Standards (Ind-AS) financial statements. These policies have been consistently applied to all the years.

2.1 Statement of compliance and Basis of Preparation

These standalone financial statements of the LLP have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III) as amended. These standalone financial statements are presented in INR and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated. The LLP has prepared the financial statements on the basis that it will continue to operate as a going concern.

The financial statements have been prepared on a historical cost basis unless otherwise indicated.

2.2 Basis of measurement

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting.

2.3 Current versus non-current classification

The LLP presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

Expected to be realised or intended to be sold or consumed in normal operating cycle

- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period, or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ▶ It is expected to be settled in normal operating cycle
- ▶ It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Current assets/liabilities include current portion of non-current financial assets/liabilities respectively.

All other assets/ liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non- current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The LLP has identified twelve months as its operating cycle.

2.4 Functional and presentation currency

These financial statements are presented in Indian rupee (INR), which is the functional currency of the LLP.

2.5 New and amended standards adopted by the LLP

The LLP applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2023. The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated March 31, 2023 to amend the following Ind AS which are effective from April 01, 2023.

(i) Definition of Accounting Estimates - Amendments to Ind AS 8:

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the LLP's standalone financial statements.

(ii) Disclosure of Accounting Policies- Amendments to Ind AS 1:

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the LLP's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the LLP's financial statements.

(iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12:

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

2.6 Revenue recognition

Revenues are measured at the fair value of the consideration received or receivable. Revenue is reduced for rebates and other similar allowances.

Ind AS 115 'Revenue from Contracts with Customers' was notified on 28 March 2018 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

Rental income

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit and loss due to its operating nature.

2.7 Cash flow statement

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit/loss before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the LLP are segregated based on the available information.

2.8 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.9 Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Subsequent costs and disposal

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in statement of profit and loss.

Depreciation

Depreciation on Property, plant and equipment has been provided on the straight-line method (SLM) to allocate their cost, net of their residual values, as per useful life prescribed in Schedule II to the Act. Management's assessment of independent technical evaluation/advice takes into account, inter alia, the nature of the assets, the estimated usage of the assets, the operating conditions of the assets, past history of replacement and maintenance support. The depreciation method, asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period prospectively.

Depreciation on tangible fixed assets has been provided on the straight line method as per the useful life prescribed in Schedule II to the Companies Act, 2013. Leasehold land is amortized on a straightline basis over the unexpired period of the leases.

Additions on account of insurance spares, additions/extensions forming an integral part of existing plants and the revised carrying amount of the assets identified as impaired, are depreciated over residual life of the respective asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Depreciation methods, useful lives and residual values are reviewed at each financial year and changes in estimates, if any, are accounted for prospectively.

2.10 Investment Properties

Property that is held for long term rental yields or for capital appreciation or for both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction cost and where applicable borrowing costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Subsequent expenditure is capitalized to assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. When significant parts of investment property are required to be replaced at intervals, the Company depreciates them separately based on their respective useful lives. All other repair and maintenance cost are expensed when incurred.

Though the Company measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an external independent valuer applying a valuation model as per Ind AS 113 "Fair value measurement".

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Investment properties are depreciated using straight line method over their estimated useful life i.e. 60 years.

Transfer of property from investment property to the property, plant and equipment is made when the property is no longer held for long term rental yields or for capital appreciation or both at carrying amount of the property transferred.

2.11 Leases

The LLP assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

LLP as a lessor

The LLP's lease asset classes primarily comprise of lease for land and building. The LLP applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The LLP recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The LLP recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the building (i.e. 30 and 60 years)

If ownership of the leased asset transfers to the LLP at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

ii) Lease Liabilities

At the commencement date of the lease, the LLP recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the LLP and payments of penalties for terminating the lease, if the lease term reflects the LLP exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the LLP uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The LLP applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

LLP as a lessor

Leases for which the LLP is a lessor is classified as finance or operating lease. Leases in which the LLP does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

2.12 Taxes on income

Income tax expense comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates items recognised directly in equity or in Other Comprehensive Income.

Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset only if, the LLP:

- i) has a legally enforceable right to set off the recognised amounts; and
- ii) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the Balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax on unused tax losses are recognised only to the extent of net Deferred Tax liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.13 Provisions and contingencies

Provisions are recognised when the LLP has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the LLP expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the LLP or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The LLP does not recognize a contingent liability but discloses its existence in the financial statements.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the LLP. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as Contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the LLP involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

2.14 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.15 Financial instruments

Financial assets and financial liabilities are recognised when a LLP becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through statement of profit and loss are recognised immediately in statement of profit and loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss (except for debt investments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the Statement of Profit and Loss.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the LLP irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for equity instruments which are not held for trading.

A financial asset may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The LLP has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in statement of profit and loss. The net gain or loss recognised in statement of profit and loss is included in the 'other gains and losses' line item.

Impairment of financial assets

The LLP measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the LLP measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

However, for trade receivables or contract assets that result in relation to revenue from contracts with customers, the LLP measures the loss allowance at an amount equal to lifetime expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the LLP uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the LLP compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

Derecognition of financial assets

The LLP derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the LLP neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the LLP recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the LLP retains substantially all the risks and rewards of ownership of a transferred financial asset, the LLP continues to recognise the financial asset.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the LLP retains an option to repurchase part of a transferred asset), the LLP allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Financial liabilities and equity instruments

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL. However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the LLP, and commitments issued by the LLP to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the LLP manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a LLP of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the LLP's documented risk management or investment strategy, and information about the LLP is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in statement of profit and loss. The net gain or loss recognised in statement of profit and loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in statement of profit and loss. The remaining amount of change in the fair value of liability is recognised in statement of profit and loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are not subsequently reclassified to statement of profit and loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the LLP that are designated by the LLP as at fair value through profit or loss are recognised in statement of profit and loss.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The LLP derecognises financial liabilities when, and only when, the LLP's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in statement of profit and loss.

2.16 Operating cycle

Based on the nature of the operations and the time between the acquisition of assets for processing and their realization in cash or cash equivalents, the LLP has ascertained its operating cycle as twelve months for the purpose of current non-current classification of assets and liabilities.

2.17 Critical accounting judgements and key sources of estimation uncertainty

The preparation of these financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in the following accounting policies and/or notes:

Critical estimates and judgements in applying accounting policies

The following are the critical judgements, apart from those estimations that the management has made in the process of applying the LLP Accounting Policies and that have most significant effect on the amounts recognised in the financial statements.

Provisions and contingencies

The significant capital commitments in relation to various capital projects are not recognized in the balance sheet. In the normal course of business, contingent liabilities may arise from litigation and other claims against the LLP. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the LLP involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Contingencies and commitments

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the LLP. A tax provision is recognised when the LLP has a present obligation as a result of a past event, it is probable that the LLP will be required to settle that obligation.

Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

When considering the classification of a legal or tax cases as probable, possible or remote there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax.

2.18 Key sources of estimation uncertainty

(a) **Taxes**

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The LLP establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

d) Profit arising on the same	65.74	58.10

e) Fair value of Investment Property

Year ended March 31, 2024	Year ended March 31, 2023
825.77	779.36

Note :

Investment property represents, land and building at Distt - Jalpaiguri, Siliguri, West Bengal. The said premise is held to earn rentals and capital appreciation.

The LLP has no contractual obligation to purchase, construct or develop or for repair & maintenance.

The LLP undisputedly possesses the title deeds for all properties held by the LLP, presented under 'land and Buildings' in the above schedule. Further, the LLP does not hold any property where-in the title deed does not convey a lucid ownership interest in favor of the LLP with respect to such property.

The Company obtains Independent Valuations of its investment properties as at the year end. The fair value of the investment properties have been derived using the Direct Comparison Method. The direct comparison approach involves a comparison of the investment properties to similar properties that have actually been sold on arms-length basis are offered for sale in the same region. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market, and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis. This approach leads to a reasonable estimation of the prevailing price. Given that the comparable instances are located in close proximity to the investment properties; these instances have been assessed for their locational comparative advantages and disadvantages while arriving at the indicative price assessment for investment properties.

As at March 31, 2024, the fair value of the Property is INR 825.77 lacs. These valuations are based on valuations performed by Er.Binayamrit Mundra, an accredited independent valuer. Er.Binayamrit Mundra is a specialist in valuing these types of investment properties and is a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. A valuation model in accordance with that recommended by the International Valuation Standards Committee has been applied. All resulting fair value estimates for investment property are included in level 3.

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment properties	Significant unobservable Inputs	Range (weighted average) <u>March 31, 2024</u>
Leasehold Land	Net Land Area	3 Acres
	Land rate applied	INR 1,50,00,000 per Acre
	Cost of land	INR 4,50,00,000
	Lessee's Interest	INR 1,94,25,000
Building	Net Area	1,28,955.28 sq ft. Foundation - INR 350 per sq. ft.
	Rate Applied - RCC Warehouse	Ground Floor - INR 570.37 per sq. ft. Foundation - INR 326.93 per sq.ft.
	Rate Applied - Outside RCC structure Warehouse	Ground Floor - INR 930.54 per sq. ft. Water Reservoir - INR 700 per sq.ft
	Cost of building	INR 5,59,26,491
Extra Items	Soak Pit & Septik tank	INR 2,00,000
	Extra Steel/collapsible gates	INR 6,35,160
Services	Compound Wall	INR 33,75,000
	Pavement	INR 30,15,480

Sensitivity analysis of the investment property fair value assumptions

Further the Company has performed sensitivity analysis on the assumptions used by the valuer and ensured that the valuation of investment property is appropriate.

All amounts are in INR lacs unless otherwise stated

18 Contingent liabilities and commitments (to the extent not provided for)

- (i) Contingent liabilities
The LLP does not foresee any liability arising in future on account of any litigation/event not accounted for.
- (ii) Commitments
Estimated amount of contract remaining to be executed on capital account and not provided for March 31, 2024 and March 31, 2023 are INR Nil and INR Nil respectively.

19 Segment Reporting

- A. Basis for segmentation
The operations of the LLP are limited to one segment viz. Leasing Business, which as per Ind AS - 108 "Operating Segments" is considered the only reportable segment.
- B. Geographic Segment
The LLP operates only in one Country and does not have any separate identifiable geographic segment.
- C. Major Customer
There are single customer which accounted for 10% or more of the LLP's revenue. The total amount of revenue from such customers is INR 87.36 lacs and INR 82.86 lacs for the year March 31, 2024 and March 31, 2023 respectively.

20 Capital Management

For the purpose of the LLP's capital management, capital includes partners contribution and all other equity reserves attributable to the partners. The primary objective of the LLP's capital management is to safeguard the LLP's ability to remain as a going concern and maximise the partner value.

The LLP manages its capital structure and makes adjustments in light of changes in economic conditions, annual operating plans and long term and other strategic investment plans. In order to maintain or adjust the capital structure, the LLP may payback or call for partner contribution to capital. The current capital structure of the LLP is partner contribution based financing. The funding requirements are met through a mixture of partner contribution and internal fund generation as per the LLP's policy to meet anticipated funding requirements.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2024 and March 31, 2023.

21 Financial Instruments

Financial risk management objective and policies

This section gives an overview of the significance of financial instruments for the LLP and provides additional information on the balance sheet. Details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset and financial liability disclosed in Note 2 and Note 3.

Financial assets and liabilities:

The accounting classification of each category of financial instruments, and their carrying amounts, are set out below:

March 31, 2024	FVTPL	FVTOCI	Amortised Cost	Total carrying value	Total fair value
Financial assets					
Cash and cash equivalents	-	-	10.79	10.79	10.79
Other financial assets	-	-	5.04	5.04	5.04
Total	-	-	15.83	15.83	15.83
Financial liabilities					
Trade payable	-	-	2.13	2.13	2.13
Total	-	-	2.13	2.13	2.13

March 31, 2023	FVTPL	FVTOCI	Amortised Cost	Total carrying value	Total fair value
Financial assets					
Cash and cash equivalents	-	-	45.02	45.02	45.02
Other financial assets	-	-	5.04	5.04	5.04
Total	-	-	50.06	50.06	50.06
Financial liabilities					
Trade payable	-	-	1.20	1.20	1.20
Total	-	-	1.20	1.20	1.20

Superba Warehousing LLP
Notes forming part of special purpose financial statements for the year ended March 31, 2024
All amounts are in INR lacs unless otherwise stated

Fair value hierarchy

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Risk management objectives

Risk management framework

The LLP has exposure to the following risks arising from financial instruments:

- Liquidity risk;
- Interest rate risk; and
- Credit risk

The LLP's designated partners have overall responsibility for the establishment and oversight of the LLP's risk management framework.

The LLP's risk management policies are established to identify and analyse the risks faced by the LLP, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed periodically to reflect changes in market conditions and the LLP's activities.

a) Liquidity risk

The LLP remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening the balance sheet. The maturity profile of the LLP's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the LLP.

Financial liabilities	As at March 31, 2024					Total
	Less than 1 year	1-2 years	2-5- years	more than 5 years		
Trade payables	2.13	-	-	-	-	2.13
Total	2.13	-	-	-	-	2.13

Financial liabilities	As at March 31, 2023					Total
	Less than 1 year	1-2 years	2-5- years	more than 5 years		
Trade payables	1.20	-	-	-	-	1.20
Total	1.20	-	-	-	-	1.20

b) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the LLP. The LLP has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The LLP regularly monitors its counterparty limits by reviewing the outstanding balance and ageing of the same.

Possible credit risk

Credit risk management

Credit risk related to bank balances

LLP holds bank balances with reputed and creditworthy banking institution within the approved exposures limit of each bank. None of the LLP's cash equivalents, are past due or impaired.

Other Credit Risk

The LLP is exposed to credit risk in relation to security deposit.

The carrying value of the financial assets other than cash represents the maximum credit exposure. The LLP's maximum exposure to credit risk is INR 15.52 lacs and INR 49.73 lacs as at March 31, 2024 and as at March 31, 2023 respectively.

	39.11	30.66

C. Balances outstanding as at year ended

Particulars	Partners	
	As at March 31, 2024	As at March 31, 2023
a. Partner's Capital (includes retained earnings)		
Mankind Pharma Limited	683.34	706.74
Sangkaj Logisys Private Limited	656.54	679.02
	1,339.88	1,385.76

23 The figures have been rounded off to the nearest lacs of rupees upto two decimal places. The figure 0.00 wherever stated represents value less than INR 500/-

24 The Income Tax Department ("the Department") had conducted a Search under Section 132 of the Income Tax Act ("the Search") on the Holding Company ("Mankind Pharma Limited") in May 2023. Pursuant to the search conducted on the Holding Company, Superba Warehousing LLP ("the LLP") has received notices under Section 148 of the Income Tax Act 1961 in December 2023 requiring the LLP to submit income tax returns for AY 2020-21, 2021-22 and 2022-23. The LLP has revised its income tax returns for the above-mentioned Assessment Years. However, based on the assessment made by the partners and its legal advisor, the LLP is of the view that no material adjustments are required to these financial results.

25 Ratio analysis and its elements

Ratio	Numerator	Denominator	March 31, 2024 (A)	March 31, 2023 (B)	% Change (C= (A-B)/B)	Remarks
Current Ratio	Current Assets	Current Liabilities	3.14	3.04	3.29%	
Return on Equity ratio	Net Profits after taxes	Average Partners' Capital	2.87%	2.19%	31.17%	Refer note 1
Net Capital Turnover Ratio	Net sales = Total sales - sales return	Working capital = Current assets - Current liabilities	11.48	2.71	323.62%	Refer note 2

Notes:**Reason for change more than 25%:**

- The movement in current year is on account of increase in Net profit after taxes and decrease in average partner's capital on account of withdrawal.
- The movement in current year is on account of disproportionate decrease in current liabilities.
